To the Immigration Minister Scott Morrison
DIBP Australia:

Subject:
An appeal by detaine
held at Manus Island,
RPC Papua New Guinea.

Respected Sir!

It is stated that in recent me
we have heard that you are going to free th
people residing in christmas Island and grantin
them TPVs, whereas, they are also included in
the same group arrived after 19th of July. The
people in Christmas, Nauru & Papua New Guine
(Manus) have arrived by same boats but now se
that there is created discrimination among us
are treated differently. For about 16-17 mont
we have been suffering from miseries & deprivec
the right to live with freedom. Firstly we we
agreed to be resettled in PNG but now realizec
if we are taken out from the camp we will face
death because most of the local guards warn u
not to go outside as they don't like us & will
create problems to us upto the extent to encite
Besides this we are not left with any option as
back is also considered as an attempt to suicide.

Sir!

It is a good step by you to take out peopl
from christmas but we also have families pr
they do care about us & we have to live fo
them & look after them as these are our respo
sibilities & liabilities being a part of humc

setup social system.
Jesus christ was the salvor & redeemer who suffered greatly just for humenkind & gave us lesson to be humane & one should sacrify for the great cause of humanity. He remained starved to feed others & was hurt just to relieve humanity. We know that, whatever is going on in the Australian politics & the measures taken for safe boarders are right at their own but there is a space for humanity & we humbly request and beg you in the name of Jesus christ to take pity on us and please, Take us out from this situation of miseries. As out fate to live a new life is in your hands.

With Regards:

Detainees, detained at
MIRPC, Papua New Guinea
